QUICK GUIDE

Mixers operate by loading your ingredients into the machine through the top grate. Turn on and let the batch mix for a few minutes. Then open the outlet or slide gate to allow material to be released.

- Determine capacity by how often you want to mix product.
- Overmixing can damage product, so make sure you can clear the mixer when batch is complete.
- Add water to reduce dust and prepare the media for plants.
- Conveyors can be used to lift material into other equipment.
