PRODUCT NAME

A-Line Filler

MODEL NUMBER

5110A

CATEGORY

Flat and Pot Filling

PRODUCT OVERVIEW

A-Line Model: The A-Line model is a budget-friendly, highly versatile, and efficient system that operates seamlessly with a compact 1 to 3 person crew and offers flexible hopper sizes of 1/3 and 1 yard. With production rates of 300 flats per hour or 12 gallons per minute, this robust unit handles everything from standard flats and trays to large 20-inch containers without requiring any machine changes. Convenient optional accessories include hopper extensions, simple manual tray sweep system, smooth-rolling casters, and durable wheels for towing.

APPLICATION

STILT PRO offers a variety of machines to automate the filling of your pots, flats, or other containers, reducing manual labor and increasing your efficiency. Each filler offers quiet operation, recycling of excess soil during production, variable speeds and optional add-ons to suit your operating environment.

KEY FEATURES

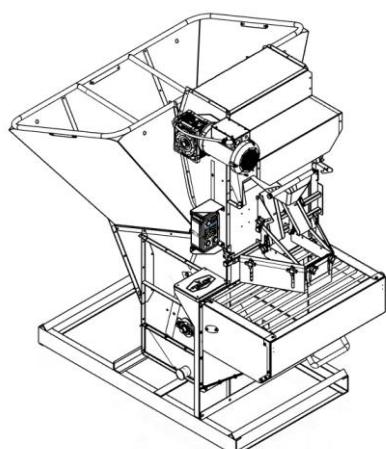

- Advanced soil feeding for greater capacity
- Variable filling speed to match your production requirements
- Versatile, fills flats, pots and baskets
- Recycle and reuses excess potting media
- Steep slopes on hopper for better soil feeding

1 Year Limited Warranty

Service/Parts through STILT.PRO

QUICK GUIDE

Fillers operate by loading your soil mix into the machine through the hopper. The machine begins to fill flats and trays from the discharge opening. Once flats are filled, replace with an empty tray.

- Easy to operate
- Variable speeds
- Excess soil will be recycled back into the hopper
- Conveyors can be used to move flats to other equipment
- Quiet operation
